Dear Curtis:

I am sorry for the delay in answering your letter of October twenty-sixth, but I had hoped that by now I might have some encouraging word for you about your project. The one Foundation which I thought might be interested turned it down because they are primarily concerned with economics, particularly as related to this country. I have a few more irons in the fire and will be in touch with you as soon as I hear anything although as you well realize, these things do not move very fast.

With best wishes,

Sincerely,

Nelson A. Rockefeller
